

MÉXICO
ENGLISH

Hello EVERYONE!
Welcome to the "World Bicycle Forum 2020".

We are: Sonalli; our purpose is to reproduce mexican music through the mixture of tradition and popular expression of its peoples. Sonalli emerged in 2017, with the aim of recovering and transmitting the sounds of mexican music to present them inside and outside of Mexico.

In the second half of 2018 we produced and recorded our first self-titled album that contains music from some musical regions of Mexico; and at the end of 2018, we released it on digital platforms and in cd's(compact discs).

Sonalli has performed in countries such as Spain, Portugal, Colombia, Italy, France, Poland and Germany, all with the aim of spreading and preserving the affection for the mexican music and mexican tradition.

Our concerts present a tour through some of the most representative regions of Mexican musical culture, taking up songs(called "sones") that show the different characteristics that make up the sounds of each of these areas of Mexico.

Due to the global pandemic caused by COVID-19, the employment situation in the music scene has been greatly affected, limiting the management of live shows that represent the main source of income for independent musicians. Because of that, Sonalli has opened the doors to voluntary contributions from the public to continue with the artistic work of the group, and at the same time have an alternative income for the daily life of its members.

Sonalli are:

Amalia Aguirre
Allan Ibarra
Ernesto Méndez
Gibrán Bailón
Abner Martínez
Félix Ruíz
Adrián Castañeda
