

# 8 Reasons why the Saw-Aid™ is your essential shop tool...

**1 Safety Push Stick**  
Holds wood down on table as you push forward. Will not hurt saw blade if accidentally cut.

**2 Saw/Router depth of cut gauge**  
Set router or saw without trail and error. Accurate to .005".

**3 45° angle gauge**  
Set miter gauge positioning off both sides of blade for 45°. Accurate as a draftsman's triangle.

**4 Precision 30°/60° Angle gauge**  
Set miter gauge as shown for 60° cut off. Gauge is accurate as a draftsman's triangle.

**5 6 inch HookRule**  
Tool heel hooks firmly over the board's edge making measuring distances from an edge easy.

**6 9 inch rule**  
Position tool at rip dimension and slide rip fence to tool heel. Spans both slots and inserts in table saw.

**7 Center Finder**  
Position stock in recess and pencil a line. Rotate stock and pencil a second line. Center is at the "X". Accurate to .005".

**8 90° Square**  
Accurately set saw blade, jigs, jointer fence, etc. Check joints for square. Accurate to 1/100".

**WARNING:** Follow all general safety rules from all manufacturers of your power tools. Use of the Saw-Aid™ does not eliminate the need for the safety equipment provided by your power tool manufacturer.

**CAUTION:** Unplug saw, router, or other power tool when using the Saw-Aid™ to adjust saw blade or cutter height.

**ADVERTENCIA:** Siga todas las reglas generales de seguridad de todos los fabricantes de sus herramientas mecánicas. El uso del Saw-Aid™ no elimina la necesidad de su equipo de seguridad provisto por el fabricante de su herramienta mecánica.

**PRECAUCIÓN:** Desenchufe la sierra, la burladora u otra herramienta mecánica cuando use el Saw-Aid™ para ajustar la hoja de la sierra o la altura del cortador.

## 5 Year Guarantee

If your Saw-Aid™ breaks in the next five years send it along with proof of date of purchase for a free replacement to **Stots Corporation**. IN NO EVENT SHALL THE **STOTS CORPORATION** BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES. This guarantee is null and void if the product is cut by the saw blade.

Si su Saw-Aid™ se rompe dentro de los próximos cinco años, envíelo a **Stots Corporation** junto con la prueba de fecha de compra para que se lo reemplace gratuitamente. EN NINGUN CASO **STOTS CORPORATION** SERA RESPONSABLE POR DAÑOS RESULTANTES O INCIDENTALES. Esta garantía es nula y sin valor si el producto está cortado por la hoja de la sierra.
