

Instructions for construction of lighthouse

List of Supplies

6 sheets of 4'x8'x1/2" foam insulation
(remove the plastic film on both sides)

x-acto knife with lots of extra blades
(change blades often)

1 tape measure or "yard stick"

1 roll of 3"x4500" carton sealing gummed tape
(this is a brown paper tape available at Office Depot or on their website
www.officedepot.com item number 444443)

1 pair of scissors

1 small plant mister type spray bottle
(this is used to wet the paper tape sufficiently enough to make it stick well)

1 large roll of newsprint or a large quantity of newspapers
(if there are printing facilities near you they might donate a roll)

1 8 ounce carton of all purpose adhesive and wall size
(this is available at Wal-Mart or a building supply store)

2 quarts of flat or satin finish latex house paint in whatever colors you choose

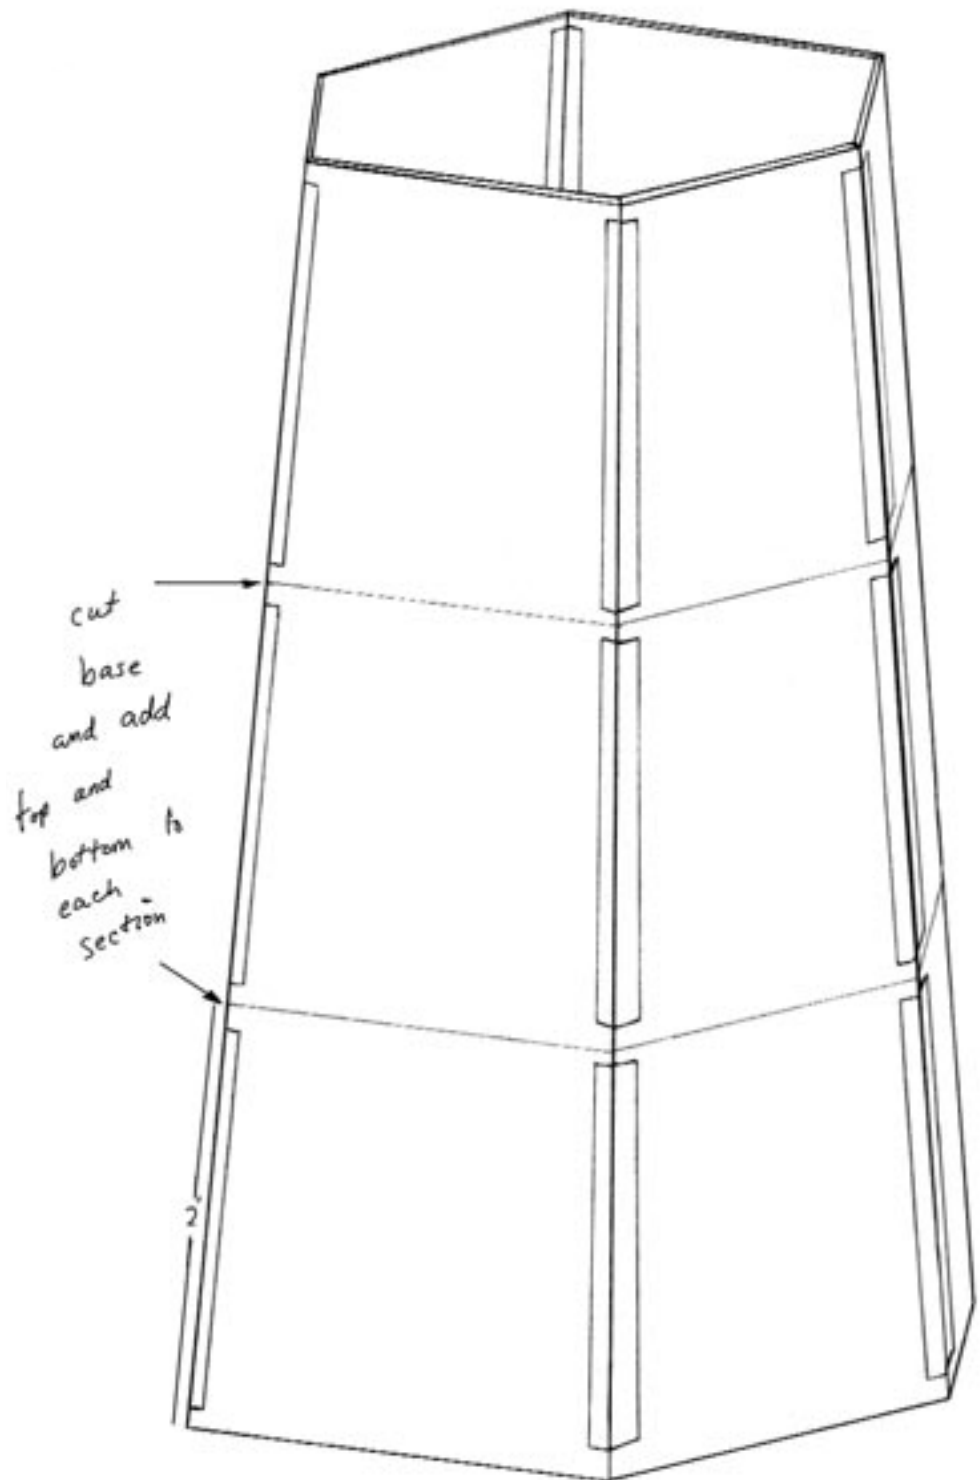

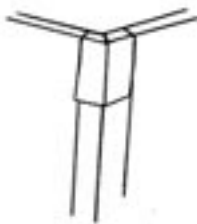

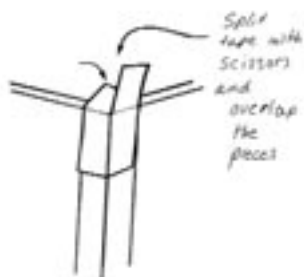

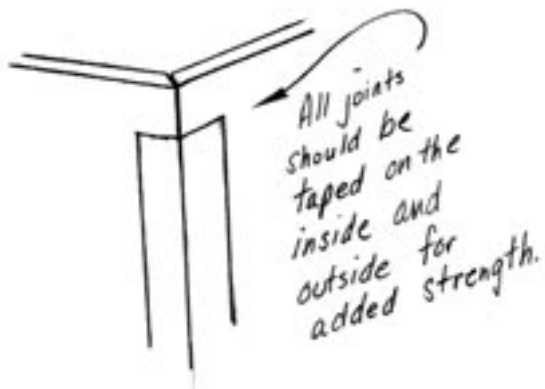

Painting supplies as needed
